

# Our DNA

What makes us, us.

## We Are

### PEOPLE-ORIENTED

We're here to make you happy. After all, what's a host without their guests?

### AMBITIOUS

We're only satisfied when we exceed your expectations (and our own).

### COLLABORATIVE

We create culinary experiences born of your vision, not ours.

### CONNECTED

Our business is built on the connections we make—with each other and with you.

### INVESTED

Whether it's pulling off a once-in-a-lifetime event or delivering delicious meals with remarkable consistency, personal investment is behind everything we do.

### CREATIVE

Cookie-cutter will never cut it. Best-in-class means giving every experience a taste profile all its own.

## Our Philosophy

Our goal is simple: we're here to make you happy. By connecting, with each other and our partners, we get people talking—and daydreaming—about food, long after their last bite.
